

Furrow GOLD

Furrow GOLD is a uniquely blended product containing a very high soluble Fulvic substance, plant and root growth promoter, Liquid Sugar, Zinc, Manganese and Sulfur.

5-0-3 w/ 2.5 % Zn, 1% Mn, 0.5% S 10.3 lbs./gal 7 pH
Application Rate: 1– 2 quarts/acre in-furrow or 2x2.

Benefits of Adding Furrow GOLD to Your Starter Program:

Carbon source of very high soluble fulvic acid from vegetable source.

- Increases soil cation exchange capacity improving nutrient availability.
- Increases nutrient uptake by converting major and minor elements into plant available form.
- Improves water holding capacity.
- Promotes biological activity of many beneficial microorganisms.
- Increases root growth promoting better nutrient uptake.
- Improves soil micro-nutrient availability and intake.

Plant and Root Growth Promoter from naturally occurring plant hormones.

- Enhances plant growth and overall yield.
- Improves nutrient mobilization throughout the plant.
- Increase root development, plant chlorophyll content and leaf area.
